TexCycle AI

USER EVALUATION FORM — BUYER

User Acceptance Testing (UAT) | Project ID: R26-IT-081

Purpose: To record the buyer's experience when evaluating the TexCycle AI platform. The responses below reproduce the answers provided for this evaluation.

Evaluation question	**Recorded response**
1. Which user role did you evaluate?	Buyer
2. Were you able to complete the assigned use case?	Yes
3. Was the platform easy to understand and navigate?	Easy
4. Were the displayed material details clear?	Yes
5. Was the sustainability information understandable?	Yes
6. Did you identify any issue or improvement?	No
7. Comments or suggested improvements:	"More colorful."

Summary feedback

The buyer reported completing the assigned use case, found the platform easy to navigate, and indicated that material details and sustainability information were understandable. The buyer selected "No" for identifying an issue or improvement, while also suggesting "More colorful." This comment is recorded as a visual design suggestion; implementation status has not been confirmed.
