TexCycle AI

EXTERNAL USER EVALUATION

User Acceptance Testing (UAT) | Project ID: R26-IT-081A

Evaluation question	Response
1. Which user role did you evaluate?	External user
2. Were you able to explore the main pages of the platform?	Yes
3. Was the platform easy to understand and navigate?	Easy
4. Were the purpose and main features of TexCycle AI clear?	Yes
5. Was the information displayed on the platform easy to understand?	Mostly yes
6. Did you identify any issues or improvements?	Yes
7. Comments or suggested improvements:	Use short explanations for AI-generated results and make the main navigation labels clear.

Use case.

Explore the TexCycle AI platform and assess whether its purpose, navigation, and displayed information are understandable. The answers above are fictional examples for formatting practice only.

Summary

In this illustrative example, the external user can explore the platform and understand its main purpose. A possible improvement is to make AI-generated information easier to understand. This is not a verified result from the actual UAT.
