TexCycle AI

SELLER USER EVALUATION

User Acceptance Testing (UAT) | Project ID: R26-IT-081

Evaluation question	Sample seller response
1. Which user role did you evaluate?	Seller
2. Were you able to complete the assigned use case?	Yes
3. Was the platform easy to understand and navigate?	Easy
4. Were you able to enter the textile material listing details?	Yes
5. Were the listing fields (material type, quantity, condition, and price) clear?	Yes
6. Was the sustainability information understandable?	Partially
7. Did you identify any issue or improvement?	Yes
8. Comments or suggested improvements:	It would be helpful to add a bulk listing option for entering several textile waste items and to make the material categories clearer.

Summary

In this illustrative scenario, the seller can complete a textile listing and understands the main listing fields. Suggested improvements are bulk listing and clearer material categories.
